There are no Files in this course | Principal's Message I warmly welcome you to surf HTTPS website. I hope you can feel the joy of our students from looking at the photos and understanding our school life here. The theme for this school year is "Be Grateful and Joyful". We hope to enable students to enjoy the fun of reading and explore the treasures from books through encouraging reading. The attractiveness of reading is to enter a different world where we may not be able to go in our real life. In there, we are like to meet the author whom we have never met before. We seem to make good friends with the authors and enter their innermost world. We seem to be able to feel how they feel and to think what they think. I tried to contact an author through an online socializing platform after I had read a book with my son. We told him that we liked his book very much. Excitingly, we got the feedback from him and we had made friends! This year, we have designed a READING WORM which consists of five parts (HTPS – W). We wish that our students can become a WISE reading worm ultimately by going through the first four stages. Actually, people will discover that their horizons are widened and their vocabulary bank is richer after reading different kinds of books and articles which are written in different languages. No matter what other people say, choose a book immediately and try to taste the fun of reading. How fruitful reading is! READING WORM H ard-working T alented P atient S pecial W ise Principal Yuen © 2017 International School of Economics © 2017 International School of Economics School SupportNew Students' Parent Meetings and student adaptation periods has made a significant impact on helping our parents and students to understand and successfully adapt to new school life. Primary school information sessions and consultations, simulated primary school interviews, primary campus tours, convergence courses and simulated adaptation periods prepare our students for their transition from kindergarten into primary school. Our student rewards system recognizes outstanding performance in various aspects of scholastic life. We also encourage children to participate in a diversified offering of extra-curricular activities such as dance and Sudoku, as well as large-scale inter- and intra- speech competitions and performances to broaden children's horizons and enhance their self-confidence. These events provide a stepping stone for our students to enter primary school with readiness and confidence.
